August 1990

## RAMBLIN' THOUGHTS FROM THE PRESIDENT

MONTH BEFORE LAST OUR MEETING WAS ON THE LAST TUESDAY OF THE MONTH. WE ARE SORRY IF ANY ONE WAS INCONVENIENCED BY IT. THE MEETING WAS NOTED IN THE NEWS LETTER BUT I GUESS A LOT OF PEOPLE FORGOT TO TAKE NOTE OF IT AS THERE WERE ONLY 20 PEOPLE PRESENT. THE REASON IT WAS NOT ON WEDNESDAY WAS WE DID NOT SCHEDULE THE ROOM EARLY ENOUGH IN THE YEAR. IT WAS A VERY INFORMAL TYPE MEETING. WE HAD AN OUT OF TOWNE MEMBER MAKE AN APPEARANCE, AND IT WAS A TREAT TO GET TO SEE AND TALK TO HIM ONCE AGAIN. HIS NAME IS LES MERRIMAN. AS I UNDERSTAND, HE LIVES QUITE A DISTANCE AWAY AND DOES NOT GET TO COME AS OFTEN AS HE WOULD LIKE.

OUR MEETING FOR THE MONTH OF JULY WAS A VERY SUCCESSFUL ONE. WE HAD ANOTHER INSTALLMENT OF OUR CLASS ON TI-BASE BY FRED MOORE. WE GOT OFF TO A LATE START BECAUSE OF TECHNICAL DIFFICULTIES ( BEYOND OUR CONTROL OF COURSE ), BUT IT WENT WELL. MY MEMORY ESCAPES ME AS TO WHAT ELSE WENT ON. I MUST HAVE DOZED OFF AGAIN!! LES MERRIMAN TALKED ON THE TI AND THE IBM. IT WAS QUITE INTERESTING. WE APPRECIATE HIS EFFORT VERY MUCH.

TOM FREEMAN HAD AN INTERESTING DISCUSSION ON BACKING UP A HARD DISK WITH THE PROGRAM THAT HE DEVELOPED. OUR PROGRAM CHAIRMAN, STEVE MCHR, DEMONSTRATED SOME THINGS HE HAD PUT TOGETHER ON A DISC THAT HE THOUGHT MIGHT BE OF INTEREST TO US...AND AS USUAL IT WAS. TWO OF OUR MEMBERS COULD NOT BE WITH US. CHICK DE MARTI, WHO WAS IN THE HOSPITAL FOR AN ANGIOPLASTIC AND FINISHED UP HAVING A DOUBLE BY PASS HEART SURGERY. FRED MOORE WAS, IF I HEARD RIGHT WAS IN EUROPE. WE REALY MISSED THEIR PRESENCE.

THERE IS A LOT OF INTERESTING ARTICLES IN OTHER CLUBS' NEWSLETTERS. MY OBSERVATION OF THESE NEWSPAPERS IS THAT A LOT OF THEM CANNOT BE READ BECAUSE OF THE WAY THEY ARE PRINTED. I APPEAL TO THE EDITORS OF SAID NEWSLETTERS TO TRY TO MAKE SURE THAT THEY ARE READABLE. I DO NOT LIKE TO READ A SECTION OF AN ARTICLE AND FIND THE NEXT PAGE UNREADABLE. I DON'T KNOW WHAT THE PROBLEM IS OR HOW TO SOLVE IT. FOR INSTANCE WE HAVE A REALESTATE OFFICE IN OUR AREA THAT PROVIDES A MULTIPLE LISTING OF AVAILABLE HOUSING. BUT IT IS NEXT TO USELESS BECAUSE IT IS SO POORLY PRINTED OR COPIED, THAT IT LITTERALLY CAN NOT BE READ BY ANY ONE EVEN WITH A MAGNIFYING GLASS. I HOPE THAT BY STATING MY OBSERVATIONS I DO NOT ALIENATE OR UP-SET ANY ONE. I LOVE TO READ OTHER CLUBS MAGAZINES, BUT A FEW OF THE ARTICLES ARE VERY DIFFICULT TO FIGURE OUT. IT IS VERY FRUSTRATING TO TYPE IN A PROGRAM AND FIND THAT IS NOT COMPLETELY PRINTED IN THE EXTREME RIGHT HAND OR LEFT HAND COLUME.

IF THERE IS ANY ONE OUT THERE THAT KNOWS ANYTHING AT ALL ABOUT THE FORTI MUSIC CARD, I WOULD LIKE TO COMMUNICATE WITH YOU. I CAN NOT UNDERSTAND THE DRUM FUCTION OF THE CARD. I HAVE HAD THE CARD FOR ABOUT THREE YEARS AND HAVE READ THE DOCUMENTATION SEVERAL THOUSAND TIMES, ( WOULD YOU BELIVE A FEW TIMES ) AND STILL CAN NOT COMPREHEND IT. IF YOU LIVE CLOSE ENOUGH TO ME TO CALL, MY PHONE NO. IS 213-644-6241, OR IF YOU WANT TO WRITE TO ME, WRITE TO:

EDGAR A. MAY  
4081 W. 130th ST. Apt. D  
HANTHORNE, CA 90250

I NEED YOUR HELP!! I LIKE ALL TYPES OF MUSIC AND AM NOW WORKING ON A DISC OF CLASSICAL COMPOSITIONS. I HAVE A DISC OF CHURCH HYMNS, CHRISTMAS SONGS, AND POPULAR SONGS. I WOULD LIKE TO FIND THE TIME TO DO A COMPLETE BROADWAY SHOW OR AN EASTER CONTATA BY PETERSON. LOOKS LIKE I AM RUNNING OUT OF SPACE AGAIN. SO THATS ALL FOR THIS MONTH. SO-LONG TILL THE NEXT TIME.

YOUR PRESIDENT

EDGAR A. MAY

**STILL A BIT SLEEPY!**

by Steve Mehr, UG member

Still not fully back on track. As you can tell, I failed to write an article for last month's newsletter. Sorry!

\* WHAT YOU MAY HAVE MISSED \* at the June meeting was the monthly tutorial on TI-BASE. Actually, those in attendance did also! With Fred Moore on vacation and Chick DeMarti in the hospital (get well soon!) we postponed the TI-BASE tutorial until the July meeting. Speaking of Ray Kazmer...? We did show his 1987 (almost three years ago!) Christmas present to the TI community. Always a joy to watch. I did talk to Ray recently and he informed me that he is working (successfully) on converting graphics from "other formats" to the TI. I thought I noticed the street lights dim while driving through his neighborhood! For more information, contact Ray directly:

Ray Kazmer  
8614 Foothill Blvd. #221  
Sunland, CA 91040  
(818) 353-1164

The above information is his current address and phone number.

\* WHAT YOU MAY MISS \* at the July meeting will be a demonstration of TI-ARTIST PLUS by Alonzo Slade. Alonzo's presentation will follow the same format as the TI-BASE demos, that is, presenting one segment of the program at each meeting.

We will also delve deep into the Formatter of TI-Writer and how to control it from within the Editor. Confused? Well, come to the meeting and have your questions answered. By the way, don't forget to bring any printouts or TI-Writer files that may be troubling you and we'll see if we can fix them.

Since announcing the winner of the Name Contest, Marshal H. Ellis, I have received a few issues of the Technical Interface. Very nice work, Marshal. Too bad they're only intended for members of the Mid-South 99 User Group. Maybe Marshal could... (seed planted).

**WORD FUN #2**  
By Earl Raguse

This is a continuation of a previous Word Fun. These questions came from the Ashland, Oregon, INSIDER newsletter. No answers were provided.

**INSTRUCTIONS:** Each quotation below contains the initials of the words of a saying, fable, song, poem, etc related to the preceding number. Your job is to figure out the words. For example, 3 L P would be 3 Little Pigs, the number is part of the solution and is not even related to the number of letters or words in the solution.

Good Luck!

The answers, that we got, are elsewhere herein. You can help by letting us in on the ones we did not get.

- a. 1 H on a U
- b. 1 M F the R
- c. 1 F O the C N
- d. 2 P in a P
- e. 3 S to the W
- f. 3 M in a T(RADD)
- g. 3 F in a Y
- h. 3 C in the F
- i. 3 S (L M and C)
- j. 4 W the B T
- k. 4 S and S Y A
- l. 6 O O H D (of the D)
- m. 6 Y G E R (W)
- n. 7 C E o 7 C in a R
- p. 7 B F S B
- q. 13 is a B D
- r. 16 S and N B K (tricky)
- s. 21 G S t 31 F at B R
- u. 32 T in an A M
- v. 40 T has A B
- w. 80 D A the W
- x. 99 B of B (OTW)
- y. 110 C C B
- z. 300 P S in B

(Answers are on page 9)

**NAUGHTY WORDS in JOURNALISM**

Mike Royko, a syndicated columnist for the Chicago Tribune, recently created a 'tongue in cheek' article entitled "Fried Chicken is More Than Just Dinner". His opening lines are:

"Maybe it's time to wave the white flag. The age of super-sensitivity is crushing me". Then he goes on to describe a bad word dictionary put together in conjunction with "...something called Multicultural Management Program at the University of Missouri School of Journalism".

It is a 'bad word' dictionary, they (the panel) say too many journalist use that offends and perpetuates stereotyping. Some of the 'don't use' words are:

Dutch treat      Senor Citizen  
buxom              fried chicken  
dizzy                burly  
lazy, petite(?), and ugh!

Get this reasoning:

**Dutch treat:** implies that Dutch people are cheap.

**Dizzy:** Avoid as an adjective for women.

**Petite:** Reference to a woman's body size. Can be offensive.

There are many more words described in this humorous article, but two caught my "shiftless" eye because I have an interest in the origin of words.

(1) **GYP:** "An offensive term, meaning to cheat, derived from Gypsy."

(2) **UGH:** "A guttural word used to mimic American Indian speech. Highly offensive".

Being a **LAZY, BURLY, SENOR CITIZEN** myself, I never realized the connections.

If any of you **JANES, JOCKS, or GORGEOUS** (Yes! that word is on the list of offensive words?) would like a copy of the article, send an SASE to Chick De Marti  
18028 Falda Ave.  
Torrance, CA 90504

CONTINUING FORTH #1  
By Earl Raguse

I have been asked to continue with Beginning Forth, but it is definitely over. I don't know any more beginning stuff, besides, if you have read all twenty articles in this series, you are ready to move on. I have consented to write some Continuing Forth articles, but don't expect them to be regular. I will write when the mood strikes, or when I something I think you should know.

In this series, I intend to get into more advanced aspects of Forth. We won't get too far, because my knowhow doesn't go too far. This time I am going to use some Assembly language words available in Forth, VMBR and VMBW for Video Multi Byte Read and Write.

These are very usefull for strings and text on the CRT. Whatever is in the Screen Image Table (SIT), in VDP memory, is displayed on the CRT. VMBR reads the Screen Image Table directly and moves the info directly into any console address you specify. VMBW does the reverse, it takes text from a memory location and writes it to the SIT at the address you

specify, a very quick and easy way to handle CRT text.

Note that I call the monitor screen CRT in order not to confuse it with Forth Screens. The SIT address begins conveniently at (zero), each CRT line (row) is 40 characters long. There are 24 rows, and 40 columns. The SIT address is calculated as

$$\text{SIT (Addr)} = \text{ROW} * 40 + \text{COL}$$

the first row and column are zero. If you can't think that way then let the first row and column be one and change the formula to

$$\text{SIT (ADDR)} = (\text{ROW}-1) * 40 + (\text{COL}-1)$$

You will have to fix the definition on Screen #40, of ACCEPT\_AT and WS (Write Screen). CRT locations, incidently, are calculated the same in Assembly, except that in the GRAPHICS Mode, the CRT is 32 characters wide as in Basic. In Forth there is no character set available in the GRAPHICS Mode, EXCEPT, in the 64 column Editor. It is possible to use these tiny characters in the GRAPHICS Mode to label praohics, and that will be the subject of another article.

CONTINUING FORTH #2  
By Earl Raguse

MORE VMBW plus VWTR and DCOLOR

I will talk about these in reverse order. DCOLOR is how one changes foreground and background colors in Forth Graphics. DCOLOR is a variable which stores two hex bytes for FG and BG colors. It is used as shown in Screen #49 lines 8 through 12. The color values range from 0 to F and are listed on page 3 of Chapter 6, GRAPHICS in the TI Forth Manual. They are identical to the colors in the XB Manual, but are numbered in Hex starting with zero instead of one. It is normally wise to make the BG color transparent (ie 0), then the screen color is controlled by SCREEN which expects a hex number on the stack. The same set as the colors above. You must be in GRAPHICS Mode for both of these, and hence cannot use text as in the TEXT mode. I will be writing about this soon and show how one can use the "tiny characters" from 64SUPPORT Editor in the GRAPHICS Mode to label a graph.

While in the TEXT mode in Forth you can control color using an assembly language instruction VWTR (Video Write To Register). Register #7 is what controls the FG and BG colors of text. Register #1 is what controls whether one is in TEXT or GRAPHICS modes. Screen #50 provides 4 examples of different FG and BG color combinations. Lines 2 through 5 show the syntax for VWTR. The first of the hex numbers is 0 to F for FG color and the second is 0 to F for BG color. Lines 6 through 9 create a message to be displayed in the selected colors, and lines 10 through 13 are the words you would enter to be executed. Line 14 prints a prompt. All quite simple.

Screen #51 and #52 are a demo of VMBW which was explained last time but was used to write only one line to the CRT. Now if one uses a DO LOOP as in PUT one could write a whole CRT full at a time. Screen #51 was written just to demonstrate this. When you enter 51 PUT per prompt, don't blink or you won't see it, it prints FAST!.

May the FORTH be with U.

## SCR #51

```
0 VMBW is a normal assembly language
1 instruction, directly accesible in
2 Forth. It is extremely fast. It
3 writes text from a memory location
4 to the VDP SCREEN IMAGE TABLE, and
5 hence to the CRT. It does this in a
6 wink as compared to XBASIC and even
7 the standard Forth printing words.
8 This text was specifically prepared
9 to be displayed by the word PUT which
10 uses VMBW to move a block of text
11 from the screen editing memory where
12 it was put by 51 BLOCK, which loads
13 this screen, if not already loaded,
14 and puts the address on the stack for
15 use by PUT. I think its great!

The CRACKER BARREL

Aug 1990

Open Letter to my 99er Friends

I'm sorry to hear the there was no Topics for July. As that note you received said, "...due to illness"... my illness. I underwent a quadruple bypass. At the moment I am at home recuperating but I wanted to thank the many friends that sent cards, made phone calls, and offered their prayers. I also wish to thank the LA 99ers for the lovely bouquet of flowers. They not only brightened the room, but they also 'made my day'.

I'm not sure who, or how the next newsletter is getting out, but I do intend to make a contribution.

Thank again...Chick

~~~~~

FINAL ISSUE ???

One of the notes I got was from Earle Raguse. He said he was sorry to hear I was dropping my column. 'DID YOU KNOW THAT...?'. He also assured me that after a short rest I would be writing again.

First: That issue was my final column under that name of 'DID YOU KNOW THAT...?' because hereafter it will be called 'The Cracker Barrel'

This is solely to allow me a bit more literary license. The following article is an example.

COMPUTERS and OPERATIONS

Computer Programmers dream in computer language, ie need a certain combination to open a door, or need the final line of a program to wake up. During my recent critical operation, and the ensuing long stay in the hospital, computer dreams filled the major portion of my unconscious time...and gradually dwindled into occasional sequences.

I noticed that in most of the computer sequences, I was trying to control the outcome of whatever was important at the moment. Exam. I might be sleeping on one side and wanted to roll over. To do so I might have to figure out some combination, or see that certain boxes had to equal other boxes.

The night of my operation ( in my dreams ) I thought, "This is it, I'm not going to make it." Then I thought, "I could write a program in which I would give God 3 numbers. He would obviously know the answer, and I would then recover". This is the program I wrote:

```
10 INPUT A,B,C
20 IF A+B+C=G THEN 40
30 GOTO 10
40 PRINT "Recovering!"
```

Then in my dream I said "10,20,30". Subconsciously I heard, "equals 60, correct!" BUT NOTHING HAPPENED? Next I tried "5,10,15", and again subconsciously, I heard, "equals 30, correct!" and again nothing happened. I checked my simple program and realized that ...

I NEVER GAVE 'G' A VALUE!!! I was doomed to an eternal loop!

I continued to enter numbers for what seemed like hours, knowing that it was hopeless. Then I happen to input 1,2,3 and suddenly all the numbers that were on the ceiling above my head disappeared and I heard "1+2+3=6. Correct, G=6"

I opened my eyes and saw the doctors and nurses standing around me and heard their voices, "It looks like he'll make it".

My egotistical, mortal mind said "It can't be! I never gave God the value of 'G'!" Then the simplicity of it all came to me. I didn't write the program. God did! And because He did, He knew the value of 'G'.

~~~~~

## TI-Writer Tip

From Rocky Mountain 99er Apr. '90 comes:

"...and from the HV99ers comes this neat tip...You can eliminate the need to use the arrow keys to go to the actual filename when you load or save a file. The Editor doesn't care if there are a couple of spaces after "LF" or "SF" Cmnd. So if you type in:

LF <space><space>

you will find the cursor positioned on the actual filename when it appears on the screen."

(Why didn't I think of this one?)

~~~~~

## A FORTH TIP

From the QB Monitor comes this:

"He who goes forth  
with a fifth on the Fourth,  
May not go forth on the Fifth!"

~~~~~

## XBasic Tip

John Dunning of the EAR 99ers reminds us that:

"When you type in a line number in the command mode and press Fctn +X, that line is brought up on the screen. If you continue to hold the two keys down the next line appears, and the next, and so on. But did you know that once you have started to bring the lines up you can let go of the Fctn key and just hold the 'X' and the lines will continue to scroll up the screen. Handy if you need to have your right hand free to follow a print-out, etc.. It also works with the 'E,S, and D' keys.

~~~~~

"The most costly mistake you make will not cost you money, but will cost you by not learning from the experience." Anon

## CALL INIT

Jim Peterson reminds us of a Danny Michael hint:

"...to avoid those lockups and other foul-ups that occur when you CALL INIT after you have already CALLED INIT...use:"

```
CALL PEEK(8198,A):: IF A<>1  
70 THEN CALL INIT
```

~~~~~

## A TI-Vacation anyone?

"In the tradition of the International Meeting of TI Users, the annual meeting will be hosted by the TI-Workshop of Wiesbaden. (they) ...invite you to attend this event on 28 thru 30th of Sept. 1990 at Burgerhaus located in Wiesbaden - Erbenheim, Germany...It will begin on Friday at 4:00 P.M. and continue until Sunday, between 12:00 noon to 4:00 P.M. depending on interest and participation...Limited sleeping arrangements can be provided at the Burgerhaus at no cost...providing you bring your own sleeping bag! A list of local hotels and a city map will be provided if requested." For reservation and other information notify us at:

TI-Workshop Wiesbaden  
Eleonorenstrasse 6  
6200 Wiesbaden, Germany

or:

Gerald D. Turner  
PSC 1 Box 6895  
APO NY 09633

( There was much more to this ad/article, but I edited it for this column. I found it in the OMAHA TI99/4A newsletter. Thanx Mike McCann. CD )

~~~~~

I'm out of coffee,  
See you next month at  
the CRACKER BARREL.

## WORD FUN ANSWERS #2

By Earl Raguse

These are the best answers we could figure out. Remember, if it doesn't fit exactly, and you haven't heard it before, it probably isn't right. Try again. Please help, if your figure them out, let us know.

- a. 1 Horn on a Unicorn
- b. 1 More For the Road
- c. 1 Flew Over the Cuckoos Nest
- d. 2 Peas in a Pod
- e. 3 Sheets to the Wind
- f. 3 Men in a Tub (Rub A Dub Dub)
- g. 3 Feet in a Yard
- h. 3 Coins in the Fountain
- i. 3 S\_\_ (L\_\_ M\_\_ and C\_\_)
- j. 4 W\_\_ the B\_\_ T\_\_
- k. 4 Score and Seven Years Ago
- l. 6 O\_\_ O\_\_ H\_\_ D\_\_ (of the O\_\_)
- m. 6 Y\_\_ G\_\_ E\_\_ R\_\_ (W\_\_)
- n. 7 Come Eleven
- o. 7 Colors in a Rainbow
- p. 7 Brides For Seven Brothers
- q. 13 is a Baker's Dozen
- r. 16 Sweet Sixteen and Never Been Kissed
- s. 21 Gun Salute
- t. 31 Flavors at Baskom Robins
- u. 32 T\_\_ in an A\_\_ M\_\_
- v. 40 Thieves has Ali Baba
- w. 80 Days Around the World
- x. 99 Bottles of Beer (On The Wall)
- y. 110 C\_\_ C\_\_ B\_\_

IN THE LAST THREE TI-BASE LESSIONS GIVEN AT OUR CLUB MEETING WE HAVE COVERED ITEMS PRE-PROGRAMED PART OF TI-BASE SUCH AS SETUP, CREATE, APPEND, CATALOG, CHANGE, COLOR, CONVERT, COPY, DELETE, FORMAT, PACK, PRINTER, RECALL, RECOVER SNAP, SUM, TRACE, SORT, PRINT AND MANY MORE. IF THIS IS ALL THAT TI-BASE COULD DO IT DOES NOT SET IT APART FROM SOME OF THE OTHER DATA BASES. SUCH AS PRK, MULTIPLAN, PR BASE, FIRST BASE, TI-WRITER OR ANY OTHER DATA BASE THAT I HAVE COME ACROSS THEY ALL HAVE THEIR SPECIAL FEATURES. AT OUR NEXT MEETING WE WILL COVER THE ITEM THAT MAKE TI-BASE STAND AHEAD OF ALL OF THE OTHERS DATA BASES. THAT ITEM IS COMMAND FILES WHERE YOU CAN WRITE YOUR OWN PROGRAM TO TELL TI-BASE WHAT AND HOW TO DO ANY ITEM YOU CAN THINK OF. SEE YOU AT OUR NEXT MEETING ON AUGUST 22TH. FRED MOORE.
