

Feedback

I'm Faizal from Malaysia. Just ordered a Raspberry Pi and waiting to reach me. Saw this link today for your mag. Great effort but if can have more images (more pictures) view would be great.

Faizal

Your magazine is great. I'm using it to teach python to my kids. One possible suggestion, would it be possible to produce a .mobi or .epub version, as this would save paper, and i could just put all the magaines on the Kindle for them to read and copy from?

Adam

I am a Pi owner and just today found out about the magazine. I am planning on starting at issue 1 however I would have found it sooner had it been on Zinio (<http://za.zinio.com/>) I use this Android app to read all my magazines. So if you can publish it there, it would

be awesome, and I can get the updates the moment the next one comes out.

Q

Still a great mag. Just one question have you stopped the skutter articles as this is the second month with nothing regarding the skutter? I hope you have not as I was looking forward to the articles.

Andy

While I enjoy reading the MagPi, I'd like to read it on my Kindle, if you already offer that as an electronic download. The two column layout is a pain to read on the Kindle. Would you consider one of the following options:

1. Master the MagPi for one column half-size-pages PDF
2. Create an edition for the Amazon Kindle shop

Kirill

If only a magazine had existed in the early days of the Sinclair ZX80 my life would have been so much easier. My Raspberry Pi is due to be delivered by Santa but I have your excellent magazine to keep me informed and interested till then. Many thanks for an excellent and innovative
