## DALLAS TI HOME COMPUTER GROUP

March 1982

Last Month (by Matt Hamrick)

February's users' group meeting was held with lots of anticipation by Adventure fans such as myslef. Richard Lamson was either lucky or crafty enough to get his hands on the newly released Adventure module for demonstration to members. Other activity included a demonstration of BISON (Dallas Morning News online network) and techniques for winning with the TI-Invaders game module.

## Next Meeting (by Doyle Kelley)

Subject: Mini Memory Module. A brief discussion of features and potential application will proceed a short demonstration. Members will have the opertunity to use the several modules that will be available at the meeting. If you own a mosule, please bring it to the meeting to insure that we have enough for each of the 99/4 stations. Besure and identify your module prior to bringing it into the 99/4 lab area.

Location: Gorman Lecture Center, room F, on the University of Dallas campus. (the building just north of the bell tower).

TIME: Third Friday of each month at 7:00 PM.

President's REM (by Doyle Kelley)

The recent Cincinnati-Dayton Users' newsletter begin with the President's apology to those that had to stand during their February meeting. Likewise - our apologies to those that could not find a seat during the Adventure demonstration last month. Underestimating our growth appears to be a trend for at least two of our larger clubs. Some of you may recognize an increase of 99/4 related mailings. This is partly due to our policy of providing a mailing service at the requestor's expense for those items that the Secretary if you do not want to take part in the mailing list activity.

Let me remind you that we have a collection of 99/4 related articles, Newsletters, books, and technical data available during the meetings for members to browse. If you have something that you think might be of interest to other members and are willing to share - by all means feel free to bring them to the meetings. Please help us to help you by identifying "everything" that you bring into the meeting area. Nothing is more depressing than to discover that someone has left something and not be able to get it to them.
